RONALD McDONALD HOUSE CHARITIES (RMHC)

When faced with a child's illness life stops in an instant and parents enter a world of fear and worry. For parents who don't live close to the medical care their child needs, there is an added stress, distance. Most families have to travel hours for treatment. Living expenses quickly add up. Families become stressed from long drives, lost jobs, worried siblings, hotel expenses and being far from family and friends. These are extra burdens no family should have to experience. This is where Ronald McDonald House can help. RMHC programs and services keep families together and near the care and resources they need, when they have a sick child.

KEEPING FAMILIES CLOSE

Since opening in September 2012, Ronald McDonald House has provided more than 35,026 nights of accommodations to more than 1300 families with a sick or injured child traveling to St. John's for medical reasons*. With the estimated cost of hotels nearing \$205/night in St. John's – it is estimated that Ronald McDonald House has saved these families more than \$7.1 M.

MEET JOSHUA SKINNER AND HIS FAMILY OF MASSEY DRIVE, NL

It is hard to put into words how a parent feels when their child is diagnosed with cancer. It has to be one of the most stressful words a parent can hear. And for families who don't live close to the care and resources they need, there is an added stress, distance. RMHC gives families with a sick child what they need most – each other.

In March of 2019, 17-year-old Joshua Skinner noticed a mass on his body and without hesitation told his parents. At first, it was thought to be an infection and was treated with antibiotics, but the mass didn't go away. Following surgery at Western Memorial hospital in Corner Brook the family were told the mass showed signs of cancer. After multiple tests, it was determined Joshua had embryonal rhabdomyosarcoma (em-bry-o-nal rab-do-my-o-sar-coma) a **soft tissue cancer** that would require a long treatment schedule. For the family, Joshua and his parents Brian and Krista, that meant relocating on a semi-permanent basis more than 7 hours away from home to St. John's. It was then that the family was introduced to the programs and services of Ronald McDonald House.

“When we first found out about Josh’s illness it was like our lives were turned upside down. It’s something you never want to hear, especially for your child. We first thought we would be away from home for only a few days but later learned he would need to have a number of surgeries and treatment and we would have to stay for approximately 10 months or longer. This was definitely a shock to us at first, but we felt that it didn’t matter how long it was going to take as long as Josh was going to be ok.” Brian Skinner

Since July 2019, The Skinner Family have been guests at Ronald McDonald House. Joshua has also been warmly welcomed at Holy Heart School in St. John's so he can continue his studies in his last year of high school.

While their journey is far from over, with treatments expected to continue into June of 2020, the Skinner Family are grateful to everyone that supports Ronald McDonald House.

“RMHC NL supported us during one of the toughest experiences of our lives. We are so thankful for Ronald McDonald House for making us feel at home and thankful for the many new friends we have met here too.” - Krista Skinner
